SUMMARY

A proactive Informatics Engineering student and Cyber Security enthusiast with proven experience in bug hunting and web penetration testing. Recognized by government and academic institutions for identifying and reporting critical security vulnerabilities. Proficient in threat assessment, security tool development, and passionate about strengthening digital security postures

EDUCATION

Universitas Darussalam Gontor

Bachelor's Degree in Computer Science

Coursework: Software Engineering, Operating Systems, Cyber Security

Ponorogo, Indonesia

Apr. 2024 – Apr. 2028

ORGANIZATION

Organisasi Pelajar Pondok Modern (OPPM) Gontor 6

General Secretary

Kendari, Indonesia

Jul. 2023 – Feb. 2024

Koordinator Gerakan Pramuka Gugus Depan 001

General Secretary

Kendari, Indonesia

Sep. 2024 – Jul. 2017

EXPERIENCE

Bug Bounty Hunter (Freelance)

Multi Platform

Sept. 2023 – Present

Indonesia

- Received Certificates of Appreciation from Banyuwangi's CSIRT (Oct 2024) and the University of Darussalam Gontor (Nov 2024) for security findings
- Proactively addressed high-risk vulnerabilities to improve the security posture of various organizations
- Leveraged tools such as Burp Suite, Metasploit, Sqlmap, and Nmap to effectively identify and exploit vulnerabilities

Penetration Tester

Universitas Darussalam Gontor

Nov. 2024 – Present

Indonesia

- Identified and reported critical security vulnerabilities within the university's digital infrastructure, including a Stored XSS flaw that posed a risk to user data integrity
- Conducted comprehensive vulnerability assessments and penetration tests on web applications
- Authored clear and actionable technical reports with remediation steps to enhance system security
- Collaborated closely with the university's IT team to implement fixes and secure vulnerable areas

System Administrator

Universitas Darussalam Gontor

Dec. 2024 – Present

Indonesia

- Manage and maintain Linux-based servers to ensure high availability for internal web applications and services.
- Monitor network infrastructure and server performance to proactively identify and resolve issues.
- Implement security policies, manage user access, and perform routine system backups and recovery tests.

PROJECTS

Webhook Bin | *Express JS, Webhook, CTF Tool*

Sept. 2025

- Simple Webhook Bin for data exfiltration
- Post Exploitation tool for CTF
- Persistend Data Storage with MySQL
- Easy-to-use with Docker Support

TECHNICAL SKILLS

Programming Languages: Python, Bash/Shell, C, PHP, Javascript
Security Framework: CVSS, NIST, OWASP Top 10, MITRE ATT&CK
Language Proficiency: English (Professional Work Proficiency), Indonesia (Native)
Tools: Git, Neovim, Obsidian, Nmap, Metasploit, Nikto, WP-Scan, httpx, Nuclei, ffuf, Sqlmap, etc.
Others: Linux-based System Administration, Threat Assessment, Bug Hunting, Vulnerability Assessment, Web Penetration Testing, Network Penetration Testing, API Penetration Testing

CERTIFICATION

Certified Ethical Hacker EC-Council	Jun. 2025 – Jul. 2028
Certified Network Security Practitioner SecOps Group	Jan. 2025
